

TRUMANSBURG ROTARY MEETING MINUTES FOR March 11th, 2021

- ☞ President Peggy started the meeting by having Frank give us an update on John Kotun and he is doing good and is waiting when we can meet in person so he can come visit us.
- ☞ Our guests for the evening were Jane Broadfield a guest of Neil DeRaiche and Angel Stillions and Traci Kirkman (Tom and Kathleen's daughter), guests of Kathleen Overbaugh. Also joining us from the Ithaca Noon Club were Linda Brisson and her husband.
- ☞ Our guest speaker was Lydia Overbaugh Lite (Tom and Kathleen's daughter) who was speaking on ZOONOSES, the transfer of diseases from animal to human. There are three types of transfers...Parasites, Bacteria and Viruses.
- ☞ Mice and shrews are actually the beginnings of the tick problem as they are the first to get the ticks and then transfer them.
- ☞ Macaques carry viruses, namely Herpes-B.
- ☞ Climate change plays a roll, too as it helps mosquitoes spread disease.
- ☞ We all need to work harder on the ECO system around the world.
- ☞ The duck race was discussed, and the club agreed on May 22nd to hold the race. Frank will discuss more details as they come about.
- ☞ Peggy reported that clean up for the tree planting will be April 3rd at the Fairgrounds and the tentative date for the tree planting will be April 24th.
- ☞ Neil went over the Student of the Month criteria and there was much discussion, and we will look at it again with some ideas to make it our own.
- ☞ Neil also introduced Joan Broadfield as a prospective member.
- ☞ The golf tournament was discussed, and we decided to work on putting it on again this year and right now we are working on a date.
- ☞ The Fire Department celebration was, once again, discussed and we are still in discussion.
- ☞ Peggy also discussed a desk clock for the Humanitarian of the Year Award instead of a plaque and the club agreed.
- ☞ The meeting ended at 8:23.
